

Dementia Support group for children

When you have a family member living with Dementia, it can be a very upsetting and distressing time for the whole family. Our new project aims to support children who have a family member living with Dementia. We want to support children by helping them to understand Dementia and discuss any worries they may have.

What is Dementia?
Please help me to
understand.

If you are finding it difficult to talk to your children about Dementia, then please get in touch. We are offering support sessions for children via zoom. This will help children to talk about any worries they have with other children in the same situation. If you don't have access to a computer, please let us know as we can provide you with a tablet to take part.

If you would like some more information, Please call our Children's Support worker Paulene on 07495711696 or email paulene@birish.org.uk
